

Hauskunft

Renovation advice for future-proof Homes

As the City of Vienna's central service point, we provide those seeking to renovate with tailored, practical advice. To this end, we work closely with departments of the City of Vienna, local businesses, and relevant stakeholder groups, offering free guidance on renovation measures and available funding opportunities. Our objective is to maintain a high quality of life, preserve property values, and support the climate-friendly upgrading of Vienna's building stock.

What really matters when it comes to Renovation?

We have the answers!

HAUSKUNFT 

RENOVATION ADVICE FOR FUTURE-PROOF HOMES

We make Homes fit for the Future.

Hauskunft is the go-to service centre for everything connected with renovation in Vienna.

Our free consultations are tailored to your needs and are available to owners of apartment blocks and detached houses, as well as to planners and property managers.

Depending on individual needs and the type of consultation, our experts can provide advice by phone, online, or in person.

Through the expertise provided by Hauskunft, hundreds of renovation projects have already been initiated.

Renovation and decarbonisation are key pillars of Vienna's housing policy and make a vital contribution to achieving the city's climate goals.

Elke Hanel-Torsch

Executive City Councillor for Housing, Housing Construction, Urban Renewal and Women's Issues
President of wohnfonds_wien

Thinking about Renovating?

We are Here to Help!

Renovating means improving your quality of life and investing in a climate-friendly future. The path to achieving this is often a complicated one. To provide you with the best possible support for your project, Hauskunft offers personalised and practical advice.

Consulting Services

- Information evenings for apartment owners
- Dedicated events for landlords
- Initial consultations on planned renovations
- “Future Check”: by phone, online, or on site
- Legal advice for landlords on housing law
- Advice on funding opportunities
- Support during owners' meetings
- Assistance in drawing up renovation plans

Range of Topics

Our advisers answer your questions on the thermal renovation of residential buildings, the transition to renewable heating systems, energy efficiency, the extension of living space, improving comfort in living spaces, and protection against heat in summer. The advice is independent, practical, and tailored to your specific project.
